

# WeeklyReport\_2018-06-11\_06-17\_E

---

this week I spend 4 days in HDU to modify my Graduation Paper...

## Progress

### 1 Graduation Project

- modify some graduation documents on the format
- end my graduation project

### 2 Paper Reading

- Unsupervised Feature Learning via Non-Parametric Instance Discrimination
- Joint Detection and Identification Feature Learning for Person Search

*but i just don't understand many formula...next week need read again*

### 3 Code Study

- finish the javascript tutorial on hackerrank.com
- install the computer
- study the d3 on tutorialpoint.com (30%)

### 4 Group

- read the graphlayout

*haven't finish the task on understanding all the code*

---

## Recent perspective

Work	deadline	now
